

DIXON EVENING TELEGRAPH.

OFFICIAL PAPER OF THE CITY OF DIXON, BY ACT OF CITY COUNCIL.

Dixon Telegraph Sixtieth Year

DIXON ILLINOIS, WEDNESDAY SEPTEMBER 6, 1911.

Daily Twenty-Eighth Year No. 209

COUNCIL PAYS CITY BILLS OF THE MONTH

LARGEST SINGLE ITEMS ARE LIGHTING AND STREET LABOR.

TO EXTEND GALENA AVE. SEWER

Improvement Was Originated Under Old Council and Will Now Be Completed.

COUNCIL PROCEEDINGS AT A GLANCE.

Passed monthly bills amounting to \$3,253.78.

Passed ordinance for sewer on Galena avenue from Seventh to Tenth streets.

As was expected, the city council meeting last evening was devoted entirely to the passage of bills for the month of August and the adoption of an ordinance providing for the construction of a sewer on Galena avenue. The bills for the past month, which were allowed last night, amounted to \$3,253.78, the larger ones being as follows: Lighting company, \$708.08; labor at Oakwood cemetery, \$390.60; police department, \$497.50; fire department, \$287.73; surveying, \$48.75; officials salaries, \$288.33, and street labor, \$667.73.

The sewer ordinance, No. 127, which was passed last evening, legalizes an improvement which was agitated and in which all preliminary steps were taken under the old city council. The proposed improvement calls for a sewer on Galena avenue from Seventh to Tenth streets, and thence west on Tenth street a distance of 235 feet. It is also provided that an auxiliary or outlet sewer is to be built from the manhole at the corner of Galena avenue and Seventh street 185 feet east, where it will empty into the big ravine. The over flow sewer will take care of the surplus water during storms. The total cost of the improvement has been estimated by City Engineer Neighbour at \$2201.44.

That the work on this improvement may be hurried the board of local improvements met after the council meeting and confirmed the appointment of A. H. Hanneken as assessment commissioner. Mr. Hanneken was appointed by the old board and had spread a part of the assessment when the change in the city's form of administration stopped the work on the improvement.

It was also reported at the council meeting that Rink & Schnell, the successful bidders for the Hennepin avenue paving improvement had signed the contracts for the work, and that the job will be started as soon as possible.

The council at its next meeting, next Monday evening, will pass the annual tax levy ordinance. This ordinance will correspond with the appropriation ordinance passed several weeks ago.

STERLING AIR SHIP DID NOT FLY TODAY

MACHINE FAILED TO ARRIVE; HOPE TO GET ONE TOMORROW.

Sterling, Sept. 6.—Special.—The expected airship flight in Sterling today failed to materialize owing to the fact that Aviator McLeod was killed and his machine smashed in Chicago Monday. This was the man and machine booked by the company to be sent to Sterling and as there is such a demand for bookings none other was available to be sent to Sterling. The committee is making every effort to secure a machine for tomorrow but no assurance has been received that one can be sent out tonight.

There is a large attendance at the reunion and a fine parade was a feature of the afternoon program.

LICENSED TO WED

A marriage license was granted late yesterday afternoon to David L. Heagy and Miss Olive Grimes, both of Dixon.

OLD SOLDIERS ARE AT STERLING TODAY

NORTHWESTERN SOLDIERS' AND SAILORS' REUNION BEING HELD.

CITY IS FINELY DECORATED

Free Aeroplane Flights for Two Days—Many Other Attractions on the Program.

Practically the entire membership of the Dixon G. A. R. post went to Sterling this morning to participate in the annual Soldiers' and Sailors' reunion, which will be in session there today and tomorrow. The "old boys" met at their quarters in the city hall and took the 9 o'clock car to Sterling, being accompanied by the drum corps.

The reunion promises to be a big affair. The press reports indicate that the business men and citizens have responded most loyally in a financial way. An expert decorator from Chicago has been dressing the streets for a week, and the crowning feature came in an announcement Saturday that Jimmie Ward had been engaged for two aeroplane flights daily, today and Thursday. These flights are to be absolutely free and will doubtless result in drawing an enormous crowd to Sterling for the affair.

JACOB PYFER FUNERAL THURSDAY MORNING

The funeral of the late Jacob S. Pyfer will be held at the residence, 411 Jackson avenue, at 9 a. m. Thursday, conducted by Rev. M. N. Clark. Following the service the remains will be taken to Polo for interment.

FIREMEN HAD WATERMELON FEAST

In honor of his return to duty after a vacation, the members of the fire department, assisted by Isaac Trask, who officiated as master of ceremonies, gave Fire Marshal Ed Hooker a surprise last evening in the form of a watermelon feast. The affair took place at the firemen's rooms in the city hall and that it was a success is proven by the fact that none of those present have the nerve to look a watermelon in the face today.

Mrs. Nicholas Plein, whose condition was reported to be very critical yesterday, is somewhat better today.

PROGRAM FOR ROCK RIVER CONFERENCE

DETAILS OF GATHERING OF THE METHODISTS AT JOLIET ARRANGED.

GENERAL CONFERENCE DELEGATES

Are to Be Elected This Year—Reception for the G. A. R. Members.

Joliet, Sept. 6.—The program of Rock River Methodist conference to be held here this month has been completed and is in the hands of the printer. One of the principal features will be a guest list to contain names of all members of the conference and places at which they will be entertained in the city. Local Methodist churches have responded to the call of the committee for accommodations for guests and provisions have been made for most of them. Rev. A. F. Clark, Joliet is chairman of the committee and his efforts have been seconded by other members of the committee, including all resident M. E. pastors and Rev. Courier of Lockport.

Interesting Program.

The program is very interesting. The conference opens Tuesday evening, Sept. 26, with a reception. An address of welcome in behalf of Joliet Methodism will be made by Rev. E. G. Cattermole of the Richards M. E. church and one in behalf of other denominations by Dr. C. M. Brown of the First Presbyterian church. The responses will be made by Rev. C. K. Carpenter of Aurora and Bishop W. Hamilton.

Dedication of Walker Memorial

The dedication of the memorial to Rev. Jesse Walker, pioneer Methodist minister, at Plainfield Wednesday afternoon will be one of the most interesting features of the conference.

The conference calls together over 300 ministers and from 300 to 500 laymen who will meet in the Laymen's association Thursday and in their electrical conference Friday. This conference will elect seven lay delegates to the general conference at St. Paul in May and the conference will elect the same number of clerical delegates. One prominent candidate for lay delegate is A. W. Harris of Northwestern university, and his friends say he will be chosen practically without opposition because of his high standing in church educational work.

Reception for Veterans.

Another feature will be reception given by Bartleson post G. A. R. to veteran members of the conference united in an association of their own which holds annual meetings at conference time. The reception will be held Friday evening, Sept. 29, and there will be short addresses by several visitors.

PUPILS SENT TO ANOTHER DISTRICT

DIRECTORS TAKE ADVANTAGE OF NEW SCHOOL LAW.

The directors of school district No. 72, located south of Amboy, are the first of the Lee county directors to take advantage of the new school law, which became effective July 1, which permits the school officers of any school district to send the pupils in that district to some other school, providing the tuition and transportation be paid from the district school funds.

The directors of this territory, which comprises about three and one-half square miles, found that there would be but five children of school age in the district this year and accordingly they called County Superintendent Miller into consultation yesterday, with the result that it was decided to send the children to the Amboy public school this year, and to close the district school for that period.

BOARD INSPECTS IDEAL LOCATIONS

STATE BOARD OF ADMINISTRATION SCANS HOSPITAL SITES.

GIVE DECISION NEXT MONTH

Northern Illinois, Especially Rock River Valley, Declared to Be Garden.

Members of the state board of administration, who have been out for several weeks looking at proposed sites for the new hospital for the insane, say it is astonishing to find how many "choicest garden spots" "high est altitudes," and "best drainages" the state of Illinois possesses.

Members Frank D. Whipp, B. R. Burroughs, Thos. O'Connor and F. P. Norbury have returned from a week's tour. They don't want to talk in a way other than impartial for it has been reported already they have made up their minds upon a site. As a matter of fact, they have not. They have not even considered the sites at a meeting. They are still seeing proposed locations and every day brings one to light that may be favorable for the institution.

Decision Expected in October.

The members will not make a step toward the decision until the middle of this month. For the present they are simply seeing the places proposed by the more than 70 localities of Illinois.

"I believe in the last week I have run across six or eight places in northern Illinois that have been represented to me as the highest points in the state, said one of the members upon his return. "I don't say it has desirable locations, but I find local interest in the matter frequently ignorant of the mammoth needs of the institution we have to place."

"I ask about the water supply. When I tell them we have to have 75,000 gallons of water every 24 hours for the big hospital they look at me. When I tell them of the need of the drainage they are surprised again. They can't in most cases comprehend the real requirements of the new hospital."

One of the members who visited regions of the Rock river spoke highly of that section. It does not offer what we want everywhere, but the section surely is elegant. It is like a vast park, and water and drainage are perfect.

Other members who have been scouting in southern part of the state bring reports which are encouraging.

Members of the board when they have spare time, speculate on the results of their final choice of location for the institution.

"It is probable where commercial associations take the matter in hand we will make a little bit feeling for a time," said one of the members. "But this we cannot avoid. We are inspecting the places and shall decide wholly upon the merits of the places, and favoritism shall in no way enter into it."

NEAR EPIDEMIC OF HAY FEVER

HUNDREDS SUFFERING WITH COLDS AND THE SNEEZING AILMENT.

Local physicians report a near-epidemic of hay fever in Dixon and the surrounding country. Nearly every citizen is suffering from cold and in many cases the colds have developed into the famous sneezing ailment. Sore throats and severe colds on the lungs are also reported, brought on by careless dressing in the cool evenings.

LICENSED TO MARRY

A marriage license was Tuesday afternoon issued to Frederick G. Schafer of Bradford and Miss Neva Mae Vogel of Ashton.

The condition of Mrs. Frank Downing, who is at the Dixon hospital receiving treatment, remains unchanged. She is reported to have passed a very restless night.

MAYTOWN HALL HAS BEEN DEDICATED

TOWN IS NOW POSSESSED OF A COMMODIOUS PLACE FOR ENTERTAINMENTS.

BUILT BY CATHOLIC CHURCH

Several Visiting Priests at Exercises Tuesday Night—Followed by a Dance.

The good people of St. Patrick's Catholic parish in Maytown, assisted by many friends from the surrounding country, celebrated in a happy manner last evening the opening and dedication of the new St. Patrick's hall, which has been erected at a cost of about \$4,000, and which is evidently to be the center of many very pleasant social functions in that neighborhood.

Probably 300 people gathered for the occasion last evening and everyone was amply repaid. Father F. J. Porcella, pastor of the parish, started the exercises and he was assisted by several of the neighboring clergy. The portion of the evening devoted to the addresses was very short, but each of the speakers was in happy vein and put the crowd in the best of spirits.

Buckley Presides.

Supervisor James J. Buckley of Maytown was selected by Father Porcella to deliver the welcoming address and to preside and he did both in his characteristic manner. Following Mr. Buckley's short talk there were remarks by Father McCann of Elgin, Bishop Muldoon's delegate to the opening, who extended the bishop's best wishes and congratulations. Others who spoke were Father Flynn of Ohio and Father Cullen of Ambrose.

After the speeches came the dance. Music was furnished by Heft's orchestra of Dixon and the big crowd encircled the musicians time and time again. The floor was in excellent condition for a new one, and until an early hour this morning the tripping of the light fantastic was kept up.

Fine Supper.

At midnight the ladies of the church served an excellent chicken supper in the dining rooms in the basement, and the hostesses received many sincere compliments for their skill in preparing the meal.

The hall, for which there has long been need in Maytown, is certainly a credit to Father Porcella and his parishioners. It is about 40x70 feet in dimensions, and is equipped for all manner of entertainment. The foundation is of concrete and there are metal ceilings throughout. The main floor is devoted to the dance hall and stage, the chairs being so arranged as to be removable. In the basement are the big kitchen, dining room, furnace room and smoking room. A shaft is being sunk for natural gas, and when this is done the building is to be lighted with the fluid. There is a great deal of natural gas in the vicinity, the church and parish house being lighted with it. In fact, it is used for fuel also.

VIOLATED WOMAN'S LABOR LAW HERE

HARRY WENDEL, RESTAURANT OWNER, CHARGED WITH BREAKING NEW LAW.

Harry Wendel, proprietor of a restaurant on Galena avenue, this city, was arrested yesterday afternoon on a warrant issued by Justice of the Peace Hanneken and sworn to by Mrs. Anna Freese, who was at one time employed in the restaurant. The charge was violating the factory law in regard to employment of women. The law says that women shall not be employed in certain places, one of which is the restaurant, for more than ten hours each day. The case came up before Judge Hanneken yesterday afternoon and was continued until a week from Friday.

Factory Inspector Chas. Frisby of this city was instrumental in making the arrest.

HASSELBERG WILL NOT LOSE FOOT

SURGEON BELIEVES HE CAN SAVE FOOT OF INJURED BRAKEMAN.

Friends of Albert Hasselberg, the young switchman who was injured at the Northwestern yards late yesterday, brief mention of which accident was made in the Telegraph last evening, find much hope for encouragement that it was not necessary to amputate the injured member. In fact the company physician, who is attending the injured man, does not anticipate that the unfortunate young man will be crippled as a result of the mishap.

Additional particulars of the accident were obtainable today, and they show that Mr. Hasselberg's escape from much more serious injury was indeed fortunate. The Northwestern switch engine had backed down on the "Y" with several cars and Hasselberg had stopped to uncouple the air. As he did this the release of the air allowed the cars to roll toward him and the heel of his foot was caught under the wheels.

Pinched Beneath Cars.

His body was entirely between the cars out of view of his co-workers, and he was pinioned by the car wheel, which had run over the heel of his foot and up the rear of his leg almost to the knee. Fortunately at this time the Central switch engine coupled onto the other end of the string of cars and this pushed them back so the young man was released and he was able to crawl out.

It was found at the hospital that the heel of the foot had been crushed and that the flesh had been torn from the leg almost to the knee. It is probable that the heavy leather heel of his shoe, which was mashed flat, saved him from more serious injury. The surgeon worked several hours with the young man, and now feels confident that the injury will not prove as serious as was at first anticipated. However, the injury will probably incapacitate him for about four months.

SEEING FOR DIVORCE

Through her attorney, Al. A. Clappadde of Leland, Ill., Mrs. Frances Kipper has started divorce proceedings against her husband, Clyde Kipper. The summons were ordered sent to Warren county, and inasmuch as no bill has been filed, it was impossible to obtain the particulars in the case.

Miss Louise McKenney has resigned her position as cashier at the E. J. Countryman store and accepted a similar position at the Earl Grocery Co. store.

Dramatic Notes

FAMILY THEATRE

This evening will be the last opportunity to hear the Church City Four at the Family theatre. This attraction is the highest salaried act that has been played at this popular house and is by far the best musical organization heard for some time. They should be heard by all lovers of good music. The Nello, jugglers, do a number of acts that are out of the ordinary and are very interesting. Two new reels of pictures will be shown this evening.

THE ROSARY

Telling a story through which runs a virile religious sentiment that is heart-touching and yet is not of the nature to bring offense. "The Rosary," the play of Edward E. Rose's which proved such a big sensation last year, is repeating this year with added brilliancy. While the central figure is that of a Catholic priest, the character is so drawn that the question of sectarianism is not in any way involved. Rev. Brian Kelly is presented as a man of God, whose greatest thought is the good he can do for his fellow men of whatever creed or of no creed, and Frank Kilday, who fills the character, seems to have caught the author's inspiration in his conception of the role as the audience at the Dixon opera house will see when the production is presented Monday, Sept. 11. He plays a keen Irish sense of humor and good will as a foil to his priestly calling and thus is able to solve the depths of a domestic tragedy and restore happiness to a home that is near destruction through the machinations of a designing villain who seeks revenge because another won the woman he loves. He wantonly brings the wife into disrepute, after ruining her sister, but also plots the wrecking of the fortunes of his successful rival, who believes him a steadfast friend. It is the office of the priest to unravel the tangle and restore tranquility, perfecting a moral that should be witnessed by everybody, as well as enjoyed.

TRAVELING SALESMAN

The Traveling Salesman, one of the best road attractions this year, made a decided hit with a very large audience at the Dixon opera house last evening. The play is new in many of its ideas, and the production was such a company of artists would be expected to give. Much special scenery was used and the costuming was very good. Manager Starlin's next attraction is one that is creating a furore this year. "The Rosary," which will show Monday evening, is the bill and the house should be packed, as the play is being brought at a big expense.

PRINCESS THEATRE.

The pictures for tonight at the Princess theatre are very interesting. The picture entitled Light House-keeper shows an enraged and intoxicated lover planning the destruction of his rival and bride; the happy couple go to sea in a fishing smack; storm arises and villain attacks old keeper of the lighthouse to prevent warning from tower; feeble old man struggles to the dome, lights the beacon and the boat is saved from being

wrecked. It is a beautiful marine story. The other pictures are, Witch of the Range, a western drama, and In Flower, Paled.

GARRICK THEATRE

The characters are made known in "The Boss," the new play by Edward Sheldon, author of Salvation Nell, and The Nigger, which Holbrook Blinn and his admirable company is now presenting at the Garrick theatre, are such as one meets every day not only in the big city but in the small town. There is Michael Regan, the role played by Mr. Blinn, who will be readily recognized as a type that has become common in American cities in recent years, a man who by mingled force of character and not over scrupulous ways has succeeded in making himself a financial power as well as a leader in the community where he lives. There is Jas. D. Griswold, business rival of Regan, whose daughter Regan, with the aggressiveness peculiar to his type, insists on marrying. Emily Griswold, who sacrifices herself, as she believes, to save her father's fortune from disaster. Donald Griswold, socialist reformer, with a violent antipathy toward Regan, leads a strike against "the boss" which ultimately leads to the latter's downfall. Archbishop O'Connor, a singularly interesting character, whose efforts are directed toward bringing Regan and his striking employees together, though without success. All these characters are drawn with a remarkable knowledge of human nature and fidelity to truth that is often startling.

TRAVELING SALESMAN

The Traveling Salesman, one of the best road attractions this year, made a decided hit with a very large audience at the Dixon opera house last evening. The play is new in many of its ideas, and the production was such a company of artists would be expected to give. Much special scenery was used and the costuming was very good. Manager Starlin's next attraction is one that is creating a furore this year. "The Rosary," which will show Monday evening, is the bill and the house should be packed, as the play is being brought at a big expense.

POLO BANK DIRECTORS

At the monthly meeting of the directors of the Exchange National bank of Polo held in the bank parlors Tuesday, Sept. 5, S. Beard was elected president of the board of directors to succeed J. L. Mrs. Boyd who has been laid up for sometime with an abscess on her foot, is out again.

Rev. Hetrick of the M. E. church who is now pastor, may not return another year as he only came for one year.

Hettinger has been doing a great amount of grinding feed for the farmers the past few days many of them think that ground feed is better, more especially for milch cows as it increases the milk.

A NEW POLICE FUNCTION.
A new function has been added to those the New York police must perform, teaching politeness to male inhabitants. The reform has been introduced where most needed, at the Manhattan end of the Brooklyn bridge. Every evening the congestion is unequalled and has aroused the anger and disgust of many. By tens of thousands the home-goers rush to get seats in Brooklyn cars. Women and children have been trampled upon and serious injuries occur frequently. The crowd swarmed over the cars before they stopped and in the mad contest women had little

chance to secure seats.

Capt. Bourke resolved to change this. Each evening he lines up the men and compels the crowd to wait until the cars stop before boarding them and then he sees that women have first chance to secure seats. The car hogs have been too shamefaced to make serious protest and it is believed the present system is ending one of the most disgraceful scenes in New York.

FINDS SNEAK THIEF IN HER ROOM

MRS. R. FISTER SURPRISED THE THIEF BEFORE HE SECURED ANYTHING.
Mrs. R. Fister discovered a sneak thief in her bed room at about 10 o'clock this morning but before she could be summoned the man had made his escape, although the police have been furnished with a description of the fellow no trace has been found of him. Mrs. Fister was at work about the house when she heard someone moving about in the room. She opened the door and found the fellow standing in front of the bureau. She spoke to him and he turned and made his escape through the window. The woman investigated and learned that he had taken nothing and consequently said nothing about it until her son came home a short time later. The son immediately notified the police, but it is believed the fellow had gotten out of town before the officers were given a description of him. He is described as being a young fellow, about five feet six inches tall, dressed in a light suit and wearing a light cap.

BOYS TO FORM ATHLETIC TEAMS

FOOTBALL AND BASKETBALL TO BE TAKEN UP AT SCHOOLS.
With the reconvention of the Dixon public schools this week the young fellows are commencing agitation toward the organization of athletic associations, and it is very probable that meetings will be held in both of the schools before the week is out, at which preliminary steps toward this end will be taken. Those who are in a position to know state that there is a great deal of material on both sides of the river for some excellent athletic teams, and football and basketball teams will undoubtedly soon be picked up so that the preliminary practice may commence.

ROBBERS STEAL SAFE FROM SALOON

One of the boldest burglaries ever pulled off in Freeport took place on Monday morning when the safe in the front of the Steffen & Khrel saloon in East Freeport was rolled to the back of the building and out in the alley, where it was broken open with a sledge and about \$90 removed. Although the robbers were successful in getting what they went after they made a bungling job of it, which leads the police to believe it the work of amateurs.

EDDY MONEY TO CHURCH

Judge Permits Payment of \$72,000 on Bequest.

New York Church of Christ Scientist Is to be Recipient of This Large Sum.

Concord, N. H., Sept. 6.—Judge Wallace in the superior court modified a previous injunction forbidding Henry M. Baker, executor of the will of Mary Baker Eddy, from allowing any of the assets of the Eddy estate to leave this state while litigation questioning the disposition of the property is undetermined. The modification was to allow Mr. Baker to pay to the First Church of Christ Scientist, of New York city, the sum of \$72,000.

In her will Mrs. Eddy left a sum "not to exceed \$175,000" to pay the indebtedness of the New York church and it is under this authority that the \$72,000 which represents the total indebtedness of the New York church is to be paid.

There was an extended hearing by counsel on the question as to whether the proceedings brought by George W. Glover to test the validity of his mother's will shall be tried on the questions of fact in the lower court or be transferred to the supreme court on questions of law. Judge Wallace gave the parties until Sept. 11 to file memoranda on the subject, after which he will decide the matter.

MONARCHIST FORCE GATHERS

Spanish Government to Stop Invasion at Portuguese Frontier.

Lisbon, Sept. 6.—Augusto Vasconcellos, the Portuguese minister at Madrid, has informed the government that a monarchist force is concentrating on the Portuguese frontier opposite Chaves, intending to enter Portugal. The news is published by the newspaper El Capital.

The Spanish government has taken preventive measures and is convinced that the invasion will be quelled at the first shot and that the fight will not even amount to a skirmish.

FOOD RIOTS IN FRANCE

Meat, Eggs and Vegetables Are Higher and Sugar Sure to Rise.

Paris, Sept. 6.—The food riots have become general in the north of France, where the prolonged drought gives no promise of an improved condition of affairs. The prices of meat, eggs and vegetables are rising steadily.

In order to relieve the situation somewhat French colonial cattle are to be imported free of duty. This is official. The failure of the beet root crop all over Europe makes sure a further rise in the price of sugar.

OLD HAT TRAVELS

FROM COAST TO COAST

There was received in Freeport on Sunday from the express car of the fast mail which arrived several hours late, a much traveled hat. On top of the lid, a silk discer, is pasted a label, "A broken-down Chicago sport came home from his vacation and left a hat." The lower part of the writing is obscure. There are express labels showing that the head piece visited Old Town, Me., Buffalo, LaCrosse, Racine, Milwaukee, Escanaba, Decatur, St. Louis again at Chicago; and from Freeport the hat started Sunday night on its long journey to the Pacific coast.

SETTLED AT LAST.

The Mt. Carroll Democrat, which has maintained from the start of the Lorimer investigation that it is not possible Lorimer could have done anything wrong and who seems ready at the drop of the hat to call anybody a liar who intimates such a thing, has finally framed an argument which he believes will settle all doubt concerning Lorimer's honesty. The Democrat says:

"White and others who have sworn against Lorimer are perjurers and we speak advisedly, for they swore when they took oath of office that they would not accept money for a vote. They now swear they did hence they are perjurers, every one, and should be confined in the penitentiary."

According to the Democrat's oft repeated statements no credence should therefore be given the confessions of these men no matter what evidence is brought out to confirm their confessions. This is proof positive that Lorimer's seat was not purchased. We are glad that the great question has at last been settled.

BEHIND THE TIMES.

They say there is a shortage of sausage in Germany. We take this as evidence of the fact that Germany has not learned how to make sausage out of stale bread.—Rochester Herald.

A marriage license was issued this afternoon to Henry Howard of DeSoto and Mrs. Minnie B. Crews of this city.

CONFESSES C. & N. W. CAR ROBBERY

ELDER MAN TAKES ALL BLAME, BUT POLICE BELIEVE THERE ARE OTHERS

John Keller, the elder of the two young men arrested for stealing from the Northwestern cars, has confessed the whole work, but most stoutly maintains that he is the only one connected with the crime and that his brother who was arrested in Chicago by the police officers, is innocent of any complicity in the thievery.

Saturday the two men were bound over at De Kalb to await the action of the next grand jury, the bail of John being placed at \$2,000 and that of Ed at \$1,000. In default of bail they were taken to the county jail at Geneva. The police had the goods on the young men, and the proof was most abundant.

John Keller was identified by Powers & McGill and the Boston store management as the man who bought trunks to the number of six altogether from their stores.

The police are inclined to doubt the story of John Keller, that he was the only one in the job, and believe that there was an organized gang of which John and Ed were members. They say that John figures that the police have the goods on him and that there is no possible escape for him. He therefore sees no use in having his pals go too, so he is trying to protect them by taking all of the blame. This is very Damon and Pythias-like, but the police are going to root out the whole matter before they get done.

BIG FIRE AT KEWASKUM, WIS

Loss of \$350,000 Caused by Blaze in Plant of Rosenheimer Company.

Kewaskum, Wis., Sept. 6.—Fire in the elevator of the L. Rosenheimer Malt and Grain company caused a loss of \$350,000.

Unable to cope with the fire, through lack of water, the Kewaskum department appealed to Fond du Lac for aid. The firemen confined the blaze to the elevator and malt house.

FOITY GOVERNORS MEET NEXT WEEK

TO DISCUSS QUESTIONS UPPER-MOST IN MINDS OF THE STATESMEN.

Spring Lake, N. J., Sept. 6.—For the first time in history the governors of 46 states will meet in conference here Tuesday, Sept. 12; 37 executives have accepted the call outright, several from nearly states yet to be heard from and of the small remainder those who can so arrange their duties will attend for at least a part of the time. The original conference at the White House, held upon the call of President Roosevelt in 1907, was attended by thirty-three conferees.

The full five days of the program will be devoted to discussion of questions uppermost in the minds of the statesmen, while social affairs will be kept in the background.

LABOR TROUBLES NOT OVER AT MUSCATINE

Commissioner J. D. Van Bibber arrived home last evening from a trip through western Illinois and part of Iowa. He stopped at Davenport, Muscatine, Blue Grass, Clinton and Sterling.

The commissioner reports that the labor troubles in Muscatine are no means settled and that it may be necessary to call out the state troops to control the strikers, as they did last spring. The strikers made a big demonstration on Labor day with parades, speeches and banners ridiculing the button manufacturers. The strikers are destroying considerable property in the city.

My Message to Men.

I will cure you in the shortest possible time at the least possible cost for the service of a specialist. Consult me free before paying your case.

I ACCEPT ONLY CURABLE CASES AND GUARANTEE EVERY CASE I ACCEPT.

I want to talk to every sufferer from BLOOD AND SKIN DISEASES NERVO-VITAL DEBILITY, STRUCTURE AND PROSTATIC DISEASES VARICOCELE, HYDROCELE, PILES, KIDNEY, BLADDER AND ALL DISEASES PECULIAR TO MEN. The fact that you have treated elsewhere will not benefit and are skeptical does not discourage me in the least. Nearly all patients tell of the same experience. I am curing these men every ally and feel sure I can do the same for you. I especially solicit these stubborn, chronic, seemingly incurable cases. Men who realize the seriousness and gravity of their condition and will appreciate benefits conferred and the lasting cure I give, come to me for free consultation. I will then explain how different, better and more curative are my methods and treatment than those possessed by others. My special training and experience in treating all chronic, Nervous, Blood and Special Diseases and Weakness of Men, give me many advantages over the ordinary physician. If afflicted it is well worth your while to come hundreds of miles to consult me, rather than subject yourself to dangerous experimental treatment.

Many men come to me and not one has ever had cause to regret. My sympathy is enlisted with every patient. The curing and building up of weak, broken down men is my work. The welfare and cure of my patient is my only thought. My financial condition makes the few secondary considerations. In this I differ widely from the doctor who thinks only of his fee and cares nothing for the suffering of his fellowmen. Investigate before treating elsewhere; it may save many years of suffering and the means of changing your whole future.

Are You a Wreck or a Man?

Come to Me and I Will Cure You.

GUARANTEES CURES—Many patients have told me after I have cured them, that they hesitated at first to accept of my treatment because they had almost become so skeptical as to think there was no cure for them. I want an opportunity to treat just such men, and it makes no difference about the financial condition.

Dr. Guthrie will be at the Nachusa House, Dixon on Friday, Sept. 8th from 11 a.m. to 7:30 p.m. and return every four weeks and in his Office, Corner 1st Ave. and 3rd St., Sterling Every Saturday from 10 a.m. to 8 p.m.

WHEN IS A MAN IN HIS PRIME?

The old saying that a man is as old as he feels and a woman as old as she looks is approved, so far as masculinity goes, by Abraham Teachout, aged 94 years, who says a man is in his prime at 60. Teachout is a living refutation of the Osler theory. He works six days a week in his shop though he is wealthy enough to quit, and, like Edison, says he enjoys his work.

To the average youth 60 seems long past prime; 40 fits more with his ideas. But the older he grows the more distant becomes his ideas of prime, provided his health remains good. And when he passes the 60 mark himself he wonders at the errors of youth.

Taking the presidents of the U. S. as a representative body, it's seen that of the 27, 16, or more than one-half, were elected when in their 50's, five were past 60 and six were between 35 and 40. In addition, of the 16 who were past the half century mark when elected, six served in office until past 60. Washington was 64 when he retired.

If the ages of presidents may be accepted as a criterion, and it is a fair presumption that they may, Abraham Teachout's theory as to prime is well founded, the opinions of the "youngsters" and disgruntled bald-heads to the contrary notwithstanding.—Rockford Star.

THE OLD LIBERTY BELL.

History of This Relic of the Revolutionary Patriots.

Overvigorous ringing of the old Liberty bell many years ago on the occasion of the celebration of the Declaration of Independence was what put the crack in it and forever destroyed its resonant tone. It was cast by Pass & Stow in Philadelphia and hung in the belfry of the now historic statehouse in lower Chestnut street early in June, 1753. It contains 2,080 pounds of metal.

Near the top of the bell were cast the words "Proclaim Liberty Throughout All the Land Unto All the Inhabitants Thereof." Prophecy of its destiny, this gave it the name Liberty bell.

When the British army marched on Philadelphia in 1777 the bell was taken down by patriots and carried off in the night to Allentown in order that it might not fall into the hands of the enemy. In 1781 it was returned to the tower of the statehouse.

For more than half a hundred years thereafter the bell was rung and honored on Independence day every year before the crack appeared in it. An effort was made to restore its tone by sawing the crack wider, but this proved of no avail. The bell was finally removed from the tower to a lower story of the statehouse and used only on extraordinary occasions. Subsequently it was rigged up on its original timbers in the vestibule. In 1893 it was exhibited at the Columbian exposition in Chicago.

Acts of Kindness.

If every one did an act of daily kindness to his neighbor and refused to do any unkindness half the sorrow of this world would be lifted and disappear.—Ian MacLaren.

DEMENT TOWN DOINGS

Feeling any better today after "laboring" so much Monday? Neither are we.

There are too many people in Dixon who think they know all about how Gotch threw Hackenschmidt. At least a dozen have tried to show us what the holds were, and they want us to be "Hack" when the showing is being shown, as 'twere.

Pity the poor vegetarian who discovered about an hour too late, but there had been a worm in the apple he had eaten.

There is a great deal of current discussion as to whether a chicken would lay a golden egg if it were fed on gold dust. To which we add our little mite—it might (get it?) if it were a hen.

The best way to punish a woman is to make her mad. Don't try to talk back to her then. She'll talk back at herself.

Personally we have no objection to society, but why, Mawruss, should pickles be served with cream?

Dixon's bright youngsters are already shooting their reasoning at the teachers. One of the local school ma'ams had a hard time yesterday answering this question put to her by a "bright" boy: "Say, teacher, if they say a cape is a body of land extending into the water, and a gulf is water extending into the land, why don't they say a mountain is water extending into the air?"

There are some men so peevish that when the preacher tells about Joseph going down into Egypt to buy corn, they are sore because the sky pilot doesn't mention what corn was worth down there.

Optimistic.

Which calls to mind a story told by a local clergyman, who says that in his early career he was conducting a shop meeting in a big factory. He was endeavoring to interest the men in the hereafter and pointing to the clock, said solemnly: "Friends, you see that clock. You hear it ticking. Do you know what day it is inexorably and relentlessly bringing nearer?"

He paused to make his question more effective, but that pause proved his undoing, for someone in the rear of the room yelled out: "You bet we know parson—pay day."

MANY CASES READY FOR GRAND JURY

SEPTEMBER MEETING PROMISES TO BE A BUSY WEEK FOR JURY.

The September grand jury will undoubtedly have one of the busiest sessions that has befallen any inquisitorial body in this county for some time. For there are now a dozen cases to come before the jurors. In addition to several others which are said to be in prospect. There are now confined in the county jail eight men who have been bound over to await the action of the grand jury, and in addition there are four men who are out on bond and whose relations with the people will be the subject of inquiry by the jury. It is also stated that there are prospects for several other cases.

Among the cases which the jury will be called upon to investigate is one alleged case of manslaughter, two for grand larceny, a forgery case in addition to cases of petty larceny and minor misdemeanors.

AMBOY HAPPENINGS OF TIMELY INTEREST

MRS. N. C. WEDDELL HAS BEEN A RESIDENT OF AMBOY SINCE 1855.

AMBOY SCHOOLS ARE OPENED

Jasper Wrisley of Shaws Lost Barn-Cow and Five Pigs by Fire Recently.

Amboy, Sept. 6—Mrs. N. C. Weddell died at her home here at 8 p. m. Friday, Aug. 31, at the age of 84 years, 3 months and 15 days. She was a native of Scotland and had been a resident of Amboy since 1855. Her husband died in 1860. She was the mother of three children, one of whom, Mrs. Ella Plenner of Shabbona, survives her. She also leaves five grand children, one of whom, Miss Jeannette Plenner, has made her home with her for the past six years.

Funeral services were held at 2:30 p. m. Saturday at the residence on Main street, Rev. Robert Wallace, pastor of the Baptist church, of which Mrs. Weddell had long been a member, officiated, assisted by Rev. H. H. Appelmann, of the Congregational church. Burial was made in Prairie Repose cemetery.

Amboy Schools Open.

The city schools opened Monday, Sept. 4, with the following corps of teachers:

G. W. Beattie, superintendent,
High school—Miss Mary Stouffer,
Miss Louise A. James, Miss Grace Cavins.
7th and 8th grades—Miss Josie Kebo.
5th and 6th grades—Miss Jennie Carroll.
Assistant—Miss Elizabeth Edwards.
West school, 3rd and 4th grades—Miss Margaret Hammond.
1st and 2nd grades—Miss Frances Welty.
East school, 3rd and 4th grades—Miss Nina Staup.
1st and 2nd grades—Miss Mylitta Morris.

Barn Burned.

Jasper Wrisley, living near Shaws, lost his barn by fire near midnight Thursday, one cow and five pigs being burned. By the help of neighbors the surrounding buildings were saved. The barn was insured.

Look For Good Fair.

The Lee County Fair is now close at hand, but two weeks off, and preparations are nearing completion. The buildings are about finished and in-

dications point to a large and successful fair, far ahead of the success of last year's.

W. E. McVAY RECALLS YOUTH IN DIXON

LOS ANGELES BANKER TELLS HOW HE EARNED HIS FIRST DOLLAR.

The Los Angeles Tribune has been conducting a series of stories on "How I Made My First Dollar," by the leading business men of Los Angeles, and the paper of Sept. 1st contains the story of W. E. McVay, a former Dixon man. Judd O'Pitter sends us the clipping, which follows:

William Edward McVay, vice president of the German American Savings bank, can make the proud boast that when he made his first dollar the job sought the man, or rather, the boy.

The family of the grocer, a Mr. Dana, had gone on a vacation and he wanted a boy to help in the store. There was no lack of boys in Dixon, Ill., which is the scene of this story, but out of the entire number the grocer sought Willie McVay. He was 12 years old at the time and when the grocer had secured his father's consent, young McVay entered upon his duties. He was a quiet, modest, retiring sort of chap and when the other boys learned the grocer had selected Willie McVay out of the bunch they felt just a little sore and dubbed him "Dana's penny clerk." The lad made no attempt to retaliate but attended strictly to business and had the laugh on the boys when he was paid \$10 for his two weeks' work.

How did McVay feel? Well, as near being cocky as one of his nature ever could get. But he was proud mostly because his father was proud that he had done so well and that Dana had reposed so much confidence in him.

From that day to this Mr. McVay has lived so as to win the confidence of those who have dealings with him and to retain it to the end.

When he came to this city about a quarter of a century ago he entered the Security Loan and Trust company as bookkeeper and janitor—a rather unusual combination. After the business of that company was taken over by the Union Bank of Savings, Mr. McVay became cashier and when it merged with the German Savings bank he was elected vice president.

Mr. McVay is a director of the Y. M. C. A., a trustee of the Occidental college and of the Whittier State school, a director of the Union Rescue mission and a warm supporter of all moral movements.

What He Wanted.
The doctor stood at the bedside and looked gravely down at the invalid. "I cannot hide from you the fact that you are very ill," he said. "Is there any one you would like to see?"
"Yes," said the sufferer faintly. "Who is it?"
"Another doctor."

No Obstruction.
In the course of a trial at Waterbury, Conn., the examiner was trying to get the topography of the country and the relative situation of objects. The witness was asked, "Which way does the road run past your house?" The reply was, "Both ways, your honor, up and down."—Case and Comment.

TO PRESERVE WATERMELONS.

Of a large watermelon use the red part only. Cut in strips three inches long, remove seeds, weigh melon and to every pound of fruit add 3-4 lb. sugar, sift sugar over fruit and let stand until it forms its own juice, then drain juice off, bring to boil and skim well, boiling for some time add the melon meat then. Add two lemons sliced, skins not removed and three or four pieces ginger root cook until fruit is transparent and juice begins to sirup. It will take several hours to cook the preserve so there is so much water in the melon it is delicious. Use white part of melon for sweet pickles.

Wanted—Two Good Murderers.

Some curious letters passed between Garrick and a man named Stone. The latter was employed to get recruits for the low parts of the drama, and one night he wrote to Garrick, "Sir, the bishop of Winchester is getting drunk at the Bear and swears he will not play tonight."

At first sight this seems peculiar conduct for a bishop, but it should be explained that the communication only refers to the man engaged to take that character in the play of "Henry VIII." On another occasion Garrick wrote to Stone: "If you can get me two good murderers I will pay you handsomely, particularly the spouting fellow who keeps the apple stall on Tower hill. The cut in his face is just the thing. Pick me up an alderman or two for 'Richard' if you can, and I have no objection to treat with you for a comely mayor."

All Broke.

"Is your father in?" the man with the valise asked.
"No," the boy at the front door said, "he's away somewhere breakin' a yearlin' colt."
"Is your mother in?"
"No," she's out in the barn breakin' an old hen of settlin'."

"Yes, but he's layin' down upstairs tryin' to break up a cold."
"Well, can't I sell you some patent clothespins?"
"Me? No; I'm broke."—Chicago Tribune.

OCEAN TO OCEAN VESSEL COMPANY

\$15,000,000 Corporation Is Formed in New Jersey.

WILL NAVIGATE PANAMA CANAL

Great Company Is Organized with Object of Bidding on Great Contracts for Carrying Mail, Advertised by Hitchcock.

New York, Sept. 6.—The Atlantic and Pacific Transportation company of New Jersey, a \$15,000,000 corporation, formed to bid on the ocean mail service through the Panama canal, for which Postmaster General Hitchcock has advertised for bids, was incorporated in Trenton, N. J.

One of the incorporators, Bernard N. Baker of Baltimore, who helped to establish and was president of the Atlantic Transport company until it was absorbed by the International Mercantile Marine, was at the Waldorf to explain the purposes and plans of the new company.

He gave two concrete examples of what transportation by water route would save to shippers. Pig iron was sent by the overland railroads, said he, until recently, from Birmingham district in Alabama to San Diego, Cal., foundries at a cost of \$10 a net ton. Not long ago a Chinese company under the American flag entered into a contract by which they could bring pig iron from China, pay the duty and deliver it at San Diego at a lower rate.

Mr. Baker said that by taking this product down to Mobile on barges and carrying it from there through the Panama canal pig iron could be delivered at \$5 a ton and that meant the long English ton, too.

His other instance had to do with the shippers of lemons and oranges from California. It would mean to these dealers in citrus fruit a saving of approximately 40 per cent, or between \$10,000,000 and \$15,000,000 a year.

Mr. Baker has been sent to Panama in the last few years by President Taft and by Ex-President Roosevelt to investigate conditions there. The results of his visits were transmitted in February, 1910, to the senate committee on inter-oceanic canals in a document which convinced the state that the transcontinental railroad pool had been paying \$1,000,000 a year to the Panama Railway company to suppress water competition by way of Panama.

Mr. Hitchcock in advertising for bids, decided to exclude the railroads from a chance to get control of this business. In his instructions to bidders appears this clause: "No award of contract for the mail service on the route herein described will be made to any bidder who shall be engaged in any competitive transportation business by rail, or who shall be engaged in business of exporting or importing goods, wares, merchandise, or other property on his own account, or who shall bid for, on behalf of or in the interest of any person or corporation engaged in such business, or either of them, or having the control thereof through stock ownership or otherwise."

To comply with this the new company stipulates in its contract of incorporation that every person elected as a director will be required to take an oath that he is not a railroad representative or is acting in the interest of any railroad corporation.

KAISER REVIEWS HIS NAVY

German Ruler Entertains Austrian Heir-Apparent on His Yacht.

Kiel, Sept. 6.—The Kaiser reviewed practically the entire German navy. In the fleet assembled there were twenty-five battleships, including three that are among the largest and most powerful in the world. There were five armored cruisers, sixty-six torpedo boat destroyers and a number of smaller craft. All of the ships at the review flew the Austrian as well as the German flag. The spectacle was a magnificent one and well calculated to inspire the pride of the Germans.

The Kaiser was on board the imperial yacht, Hohenzollern accompanied by the heir-apparent to the Austrian throne, Archduke Franz Ferdinand, while the ships were being reviewed.

Cotton Crop of Nation.

New Orleans, Sept. 6.—No American cotton crop ever grown here sold for as much as the one just marketed, the total value, including the seed, having been \$1,030,000,000, according to the report of Colonel Henry G. Hester, secretary of the New Orleans cotton exchange.

Three Hurt in Trolley Crash.

Peoria, Ill., Sept. 6.—Three persons were seriously injured, one fatally, when a Peoria bound Illinois traction interurban car collided with an east-bound East Peoria car at Farm Creek bridge. A slippery track was given as the cause of the accident.

Tar Baby Beats Jeanette.

New York, Sept. 6.—In a ten-round glove fight that bristled with science and hard hitting, Sam Langford, the Boston tar baby, outpointed Joe Jeanette of Union Hill, N. J., by a small margin.

CIDER PRESS FAMINE

Illinois Farmers Cannot Dispose of Apples Profitably.

Sixteen-Inch Apple Is Grown—One Tree Has Branch Bearing Fifty Crab Apples.

Bloomington, Ill., Sept. 6.—Dealers report a scarcity in cider presses throughout central Illinois, due to the remarkable demand for the machines on account of the record-breaking crop of apples. It is impossible to dispose of the apples profitably except by the cider process, and presses will be an adjunct of every orchard.

Twigs bearing numerous apples are being placed on exhibition in stores and are a common sight in central Illinois. An apple now growing upon a tree in the orchard of Samuel Teuscher, near Monroe, measures sixteen inches in circumference, and will be shown at the county fair this fall. August Korf of Forreston exhibited a twig from a crab apple tree which contained fifty apples, although the twig was but fifteen inches in length.

Not only is the yield of all classes of fruit heavy, but in some instances, a second crop is coming. L. D. Rockhold of Covel has a peach tree which is just maturing its first crop. Recently a second growth of buds and blossoms appeared and now a second crop of peaches is forming. While frost is likely to prevent the second crop from maturing, the sight is curious and unusual and is attracting much attention among horticulturists.

PLAN GIRL'S POLISH SCHOOL

Catholics Ask Gov. Deneen for Charter for a Lisle Location.

Springfield, Ill., Sept. 6.—A movement is on foot to establish a great Polish Catholic training school for girls at Lisle, DuPage county, where there is now a small school of that character. Judge Timothy D. Hurley, who was one of the framers of the juvenile court law and who framed the law creating the department for the visitation of children of the state board of charities, is greatly interested in the matter and presented the application for a charter for the school to Governor Deneen and Secretary of State Rose, but was informed that the Rev. Dr. Charles Virden, state visitor of the board of administration, would have to pass on the matter first. Dr. Virden will go to Chicago to investigate.

The name of the proposed school is St. Hedwig's Industrial School for Girls. It is proposed to establish a school of the proportions of St. Mary's training school at Beechville. Heretofore the Polish have been sending their children to other Catholic institutions, but the arrangement was not satisfactory to them.

DENEEN'S HURT ILL-TIMED

Delays Announcement He'll Run for Governor and Handicaps Him.

Springfield, Ill., Sept. 6.—The injury which Governor Deneen suffered near Glenarm, when his left leg was broken in an automobile accident, will handicap him in the coming political campaign. His friends had been urging him to announce himself as a candidate for re-election to prevent other Republican candidates from getting a start. It is probable he will take no action until he can leave his bed five or six weeks hence.

Drs. Compton and Taylor said he was in no danger, but must remain in bed until the bones had had time to knit.

CHICAGO SCHOOLS OPEN

Vacation Days Are Ended for About 325,000 Pupils.

Chicago, Sept. 6.—Chicago children returned to school. For about 325,000 pupils vacation days are over. Of the number on hand from 30,000 to 35,000 have never before attended school and 5,000 more youngsters began their life of learning at kindergartens.

According to a new plan to be instituted pupils in the general high schools may be transferred to a technical school. Courses are to be arranged so as to afford a thorough high school technical training. In addition a two years' postgraduate course has been arranged.

CANNON PLAYS GOLF

Ex-Speaker of the House Declares It Is a Great Game.

Newton, Mass., Sept. 6.—Joseph G. Cannon of Illinois is the latest convert to golf. He is being initiated into the mysteries of the game at the Brae Burn Country club.

"It's a great game, a great game," he said when he sat down on the steps of the clubhouse after his first game. The ex-speaker of the house of representatives was in his shirt sleeves, his hat tilted on the back of his head and perspiration was racing down his face.

Grocer Kills Self in Barn.

Chicago, Sept. 6.—Joseph Skaler, a grocer, forty-eight years old, hung himself in a stable back of his store at 241 West Forty-Seventh street, in the night. The police reported that his business had not been flourishing recently.

BOTH SIDES REST IN BEATTIE CASE

Evidence All in and Attorneys Argue Judge's Charge.

DEFENDANT'S STORY RIDDLED

No Sensations Sprung on Last Day of Testimony Taking, but It Is Most Disastrous Time for Defense.

Chesterfield Court House, Va., Sept. 6.—In the trial of Henry C. Beattie, Jr., for wife murder, the evidence has all been taken.

On Thursday morning at 9 o'clock the lawyers will begin the summing up and before the adjournment of court on that day the jury will have retired to determine the final issue.

Today there is no court session at Chesterfield Cross Roads. Instead the lawyers for the commonwealth add the defense met with Judge Watson in the chambers of the supreme court in Richmond to argue the judge's charge to the jury.

The completion of testimony came suddenly at 6:30 p. m., when Henry Owen, a brother of the woman who was murdered, the last witness for the prosecution in rebuttal, was on the stand. His taking the stand was the final surprise launched at Beattie's defense by Louis Wendenburg, the commonwealth's prosecutor. After he had denied the story of Henry Beattie, that to the end his wife and he had never exchanged a cross word, Wendenburg announced that the prosecution rested its rebuttal. The defense had no sur-rebuttal to make and the ten days of evidence-taking were thus brought abruptly to an end.

This final day in the prosecution's effort to bring Henry Beattie to punishment for the crime of wife murder was quite the most disastrous of all that had passed over his head. No great sensation was sprung, but bit by bit, the story that the prisoner had himself told on the stand and that favorable witnesses had sought to substantiate for him was torn down by an overwhelmingly weight of evidence in rebuttal. The final question that had been up-ounded to Beattie when he resumed the stand for a few minutes to have his cross-examination completed remains unanswered and above all other questions at issue the most fraught with significance.

"How did the gun bought by Paul Beattie three days before the murder happen to be in the hands of the man who shot your wife and how do you account for the fact that in every detail of the shooting it always was the gun bought by Paul Beattie that is in evidence?" was the last question that Wendenburg shot at Henry Beattie before he left the stand.

"I cannot account for that," was Beattie's answer, nor did his counsel account for it except to put on witnesses to say that Paul Beattie's reputation for truth and veracity is bad.

The experts Wendenburg put on the stand swore that Beattie has testified to the impossible. No driver could have taken a Buick car over such a road as Middlethorpe turnpike in the night with only one hand on the wheel.

NEWBERRY AUTO KILLS GIRL

Detroit Man Gives Himself Up and Is Held Under Bond.

Providence, Sept. 6.—Truman H. Newberry, of Detroit, former secretary of the navy, while driving his ramabout at Narragansett Pier, struck and killed Helen Ellis, the seven-year-old daughter of George W. Ellis, of Milford, Mass. The accident occurred in front of the Hotel Mathewson. Newberry gave himself up to the police and was arraigned before Justice of the Peace Edgar Watts on a charge of manslaughter preferred by Policeman James C. Casswell of the Pier. He pleaded not guilty and was released in \$5,000 surety.

The accident was peculiarly unfortunate inasmuch as it is probable that had the child not turned about when her mother called to warn her from the other side the fatality would not have occurred. Mr. Newberry was acutely distressed over the affair.

WOMAN, 84, ASKS DIVORCE

After Sixty Years of Matrimony, Ohio Wife Seeks Legal Separation.

Findlay, O., Sept. 6.—Mrs. Delilah Cook, eighty-four, sued for divorce from the man who has been her husband for sixty years, Stephen Cook, eighty-four, a farmer living near here. She claims that he no longer will provide for her.

The Cooks have spent their entire married life on the same farm, it being purchased and cleared just prior to their wedding.

Man Is Drowned in Buttermilk.

Gilmore, Neb., Sept. 6.—Thomas Her, a milkman, was drowned near here in 1,000 gallons of buttermilk. Her was driving a tank containing the buttermilk to this city, when he was on dropped into a depression in the road and overturned. The tank burst and the milk filled the depression. Her was caught beneath the tank.

MISSIONARY IS SLAIN

Murdered by Natives in Interior of British Guiana.

Was Superintendent of the Mission of the Seventh Day Adventists in That Country.

Georgetown, British Guiana, Sept. 6.—Rev. O. E. Davis, superintendent of the British Guiana mission of the Seventh Day Adventist denomination, the headquarters of which is in Washington, has been murdered in the interior by natives while proselyting.

Early in May, according to church officials, Mr. Davis wrote that he had received a call to visit some Indians, about a two months' journey up the Demerara river, where no white man has ever been.

At the conclusion of this trip he expected to return to the United States to study medicine.

CATCH MAN WITH BOMB

Police Think Italian Will Solve Recent Outrages in New York.

New York, Sept. 6.—The police arrested a young Italian with a bomb under his coat all ready to explode, and believe through him they will trace the perpetrators of the numerous bomb outrages that have baffled them for the past month.

The prisoner carried a wicked looking bomb, shaped like a cantaloupe, with an eight inch fuse attached, and the police believe he was about to use it.

DEMON SPEED BUG CAPTURES CHICAGO

MOTORCYCLE RACES AT RIVERVIEW EXPOSITION—MOTORDROME HAVE CREATED A NEW CRAZE

Chicago is in the throes of a new mania known as the "speed bug." It developed with the opening of the Riverview Exposition Stadium-Motordrome, the only one of the kind outside of Salt Lake City, Utah. On the track of this Motordrome there are motorcycle races by dare devil speed kings three nights a week, and the speed of these riders has astonished the world. One rider made in 41.25 seconds a few nights ago; and another made five miles in 3:35.25. This is faster than any other kind of a machine has ever made this distance on land, the sea or in the air.

The Stadium Motordrome cost \$40,000. It is open and covers an area of nineteen acres adjoining Riverview Exposition. It is constructed completely of lumber, and the track is one-third of a mile in circumference. The track is fourteen feet wide—or rather high—because it is banked at an angle of forty-five degrees. In fact, it is what is commonly known as a saucer track, and was constructed along the lines of the highest type of racing track by John S. Prince, a veteran of the racing game. Prince is manager of the Stadium Motordrome. The track is surrounded by elevated seats for 15,000 spectators.

Riverview Exposition closes the season with a "riot of joy" September 10, but the racing at the Motordrome will continue until early in October. It is proposed to put on a twenty-four hour relay race in September in which Manager Prince thinks the riders will make 1600 miles.

PHYSICIAN ADVISES CUTICURA REMEDIES

For Eczema, Patient's Wrist and Shin Itched Like Poison. Scratched Until They Bled. Says: "Cuticura Soap and Ointment Cured Me."

"Four years ago I had places break out on my wrist and on my shin which would itch and burn by spells, and scratching them would not seem to give any relief. When the trouble first began, my wrist and shin itched like poison. I would scratch those places until they would bleed before I could get any relief. Afterwards the places would scale over, and the flesh underneath would look red and feverish. Sometimes it would begin to itch until it would wake me from my sleep, and I would have to go through the scratching ordeal again."

"I consulted our physician in regard to it, and he pronounced it 'dry eczema.' I used an ointment which the doctor gave me, but it did no good. Then he advised me to try the Cuticura Remedies. As this trouble has been in our family for years, and is considered hereditary, I felt anxious to try to head it off. I got the Cuticura Soap, Ointment and Pills, and they seemed to be just what I needed."

"The disease was making great headway on my system until I got the Cuticura Remedies which have cleared my skin of the great pest. From the time the eczema healed four years ago, until now, I have never felt any of its pest, and I am thankful to the Cuticura Soap and Ointment which certainly cured me. I always use the Cuticura Soap for toilet, and I hope other sufferers from skin diseases will use the Cuticura Soap and Ointment." (Signed) Irvan Hutchison, Three Rivers, Mich., Mar. 16, 1911.

Although Cuticura Soap and Ointment are sold throughout the world, a liberal sample of each, with 32-p. book on the skin and scalp will be sent free, on application to Potter Drug & Chem. Corp., Dept. 17A, Boston.

For Sore Feet

A REMARKABLE REMEDY FOR SORE, TIRED, SWEATY, FETID, ACHING, CHAFED FEET.

You'll find it glorious to walk even with tight shoes by using Healo for your feet. Healo gives immediate and wonderful relief to feet, hot, sweating, perspiring feet, from the very minute you use it. It is exquisitely cooling and colorless, and gives you velvety feet, sweet feet; Healo absolutely prevents perspiration, not only of the feet, but of the arm-pits as well, ending all embarrassments and disagreeable odors caused by excessive perspiration.

Healo is put up in an antiseptic powder form, from the formula of an army surgeon. Contains no starch or sticky ingredients, and is absolutely guaranteed.

Healo cleanses the pores of the skin, and makes the diseased tissue healthy.

Healo relieves and prevents corns and bunions.

Healo is sold in spray top boxes. All Dixon druggists sell Healo, 25c at their stores or by mail to their out of town customers.

PUSH CAMPAIGN AGAINST ZAPATA

Rebel Leader Is to Be Taken
Dead or Alive.

NO MERCY FOR HIM EXPECTED

Magon Said to Be About to Spring
Economic Revolution, Striking
Simultaneously at Both
Ends of Country.

Mexico City, Sept. 6.—Renewed
vigor is to be put into the campaign
against Emiliano Zapata and his
bandit band in Morelos. The govern-
ment no longer characterizes them as
revolutionists.

Zapata himself was not killed in the
fighting around Chinameca and is in
the hills near that place with his men.
The government ordered him taken
dead or alive and if he is caught his
execution is assured unless Madero
gets into office meantime and saves
his former lieutenant; but Madero
does not appear much interested in
Zapata's future welfare since the rebel
leader broke his promise to have his
men disbanded. Still, Madero insists
that if the federal troops had acted in
good faith, Zapata would have done so.

Zapata's uprising is not the only one
now troubling the federal government.
Evidence has been unearthed that
Ricardo Flores Magon, the California
revolutionist, who has men along the
border at Douglas, Ariz., El Paso, Tex.,
and other points waiting for a signal
to enter Mexico, had been laying plans
to start their movement in the south.
This information was gained by the
secret police, who have placed several
suspects under arrest.

The arrest of Enrique Novoa, nephew
of the ex-subtreasury of justice, has
caused much excitement among the
circles to which his family belongs.
The police have learned that the
revolutionary movement was planned
to start simultaneously in the states
of Vera Cruz and Honora and also the
Magonists had planned to gain en-
trance to this republic from the north.
The revolution which was planned, it
is claimed, by the junta liberal Mexi-
cana in Los Angeles, was to be known
as the economical revolution.

RAILWAY PEACE HOPED FOR

Next Move of Shopmen After Advisory
Board's Arrival in Frisco.

San Francisco, Cal., Sept. 6.—Presi-
dents of the international railroad
shop unions, who came to this city
last week to meet Vice President
Kruttschnitt of the Harriman lines, ex-
pect that today the advisory board of
the federation of shop employees of the
Harriman system will be in the city.
The meeting was called for Friday,
but J. W. Kline, spokesman for the
international presidents, says that
there may be a meeting this afternoon.
The international presidents have
been in conference. Kline said there
would be no decision in connection
with the shopmen's demands until the
advisory board arrived. Kline said he
had every hope that the differences
would be settled peacefully.

VERIFY IT.

THE PROOF IS IN DIXON ALMOST
AT YOUR DOOR.

The public statement of a Dixon
citizen is in itself strong proof of
Dixon people, but confirmation
strengthens the evidence.

Here is a Dixon citizen who testi-
fied years ago that Doan's Kidney
Pills relieved sick kidneys and now
states the cure was permanent. Can
any sufferer from kidney ills ask bet-
ter proof? You can investigate. The
case is right at home.

Mrs. W. H. Randall, 423 College
Ave., Dixon, Ill., says: "Doan's Kid-
ney Pills have been used in our home
with the best of results and I feel
that I cannot praise them too highly.
One member of our family suffered
for some time from backache and
severe pains across the kidneys and
found great difficulty in stooping.
Doan's Kidney Pills, procured at
Leake Bros. & Co.'s Drug Store
brought prompt relief, removing all
symptoms of kidney complaint. We
value this remedy very highly.
S(tatement given April 14, 1909).

A Lasting Effect.

On January 11, 1910, Mrs. Ran-
dall said: "Doan's Kidney Pills made
a permanent cure in the case of a
member of our family. I still have
great confidence in this remedy and
willingly permit the further publi-
cation of my former statement in its
favor."

Gilbert Always Remembered.

This Gilbert story reaches me from an old Harrowian, says a writer in the Manchester Guardian. In 1872 the people of the town got up theatricals to raise funds for a hospital. Dr. Butler, the head master, said he would not allow the school to go unless the pieces were first submitted to him. One was Gilbert's "Palace of Truth." In it is a passage in which the hero says to the heroine, "Meet me at 9 o'clock tonight outside the garden gate." Dr. Butler vetoed this and substituted, "Meet me at 3 o'clock this afternoon." This seemed to him more decorous. Some years after Gilbert was invited to the Harrow speeches. In reply to the toast of his health he said, "I am very much interested in visiting Harrow, for as far as I know it is the only place in the world where a line of mine has ever been condemned as improper." Great consternation prevailed—all the greater because no one except the speaker and one other person, who was just leaving Harrow in 1872, knew what he meant. It was not Gilbert's way to forget these things.

Somewhat Absentminded.

Some amusing glimpses of the discoverer of chloroform are given in the "Recollections of Lady Priestly," wife of Simpson's assistant at the time of the discovery. "The professor," she writes, "used to make his experiments with chloroform on us girls, and with some of the liquid just poured on a handkerchief would have half a dozen of us lying about in various stages of sleep. Our mother feared nothing and was only too delighted to sacrifice, if unavoidable, a daughter or two to science! * * * He was extremely absentminded. I remember once lurching at his house when he had just arrived from some antiquarian expedition. The butler, who had been unpacking his things, came in and said confidentially, 'Doctor, you have left all your flannel vests behind.' 'Ah! Oh!' replied Simpson, feeling himself all over. 'I've got them all on.'"—Pall Mall Gazette.

Ooping the Baby.

"At the first sign of an attempt to standardize and sterilize the babies," says Ellis Parker Butler in Success Magazine, "I organized the Fond Fathers' Oop-de-baby Association of America. For thousands of years fathers have been permitted to oop-de-baby unrestrained, and this right was one of the first rights attacked by the advocates of the automatic baby. I considered it a double blow at the baby and at the father and resented it as such. If a father may not oop his own baby, what is the world coming to? Ooping a baby is a father's greatest pleasure. It is the act of grasping the baby under the arms, tossing the baby into the air and catching it on its down trip, while the words 'Oop-de-baby' are repeated at each toss. This is repeated until the baby is hysterical or drops on the floor by accident. It is then handed to its mother."

Bones Stronger Than Oak.

The wonderful power of bone structure has been tested scientifically to show how that hollow bone bears strain. A very small bone, only one square millimeter (.0155 square inch) in diameter, will hold thirty-three pounds in suspension without breaking, while a piece of the best oak of the same thickness will hold up only twenty-two pounds. The bone is therefore half again as strong as the solid oak, thus showing that nature is economical in the weight given to bones, making them hollow and at the same time makes them stronger than if they were solid and much heavier. This principle has been recognized in mechanics, engineers using hollow steel tubes instead of solid to meet great strain.—New York World.

NOTICE TO SUBSCRIBERS.

Do not be surprised if you receive a statement as to how your subscription to the Telegraph stands. The new postal rulings are that subscriptions to newspapers must be paid in advance. We must comply with this law by urging your immediate settlement for subscription. It is just as easy for you to pay for your paper in advance when you have once established this practice. The Telegraph has been in business for sixty years and there is every probability that it will be in business for many years to come, so you need not be afraid to pay in advance. By prompt compliance with this request you will aid greatly in getting out the best newspaper in this section of the state.
